# JANOME

Make ready to wear garments uniquely yours, monogram pillowcases and towels for a thoughtful gift. The MC350E does it all... with 100 embroidery designs already built-in you just need to change the thread!

High quality embroidery makes it uniquely yours. Not all embroidery machines are created equal. The built-in embroidery mechanism of the MC350E, a Janome exclusive, is extremely precise. Anything you stitch out will stand up to a closer look. And that's important when it's a direct reflection of your creativity.

The MC350E has a USB port, allowing you to import designs via USB memory key. It also has an ATA PC card slot and it is possible to create multiple folders using a USB memory key or an ATA PC Card to organise and save your designs.

Like a computer, your MC350E can be updated via software. Updates can be downloaded from the Janome website. And for limitless embroidery possibilities our optional embroidery software programs allow you to create your own designs and download embroidery designs from the internet. The display screen tells you everything you need to know, so you can spend your time sewing instead of searching through an instruction book.

Expand your MC350E options with these exclusive Janome embroidery optional accessories:

**Digitizer Jr & Digitizer MBX Embroidery Software...** powerful software to release your inner embroidery artist. The Digitizer Jr software program will allow you to create, import and edit your embroidery designs with ease. The Digitizer MBX program offers powerful industrial level software with a huge range of design features.

**Clothsetter:** A Janome exclusive. Nothing else gives you absolutely perfect placement which means your designs are never limited to the size of the hoop!

**Free Arm Hoop:** This 50mm x 50mm (2" x 2") hoop lets you embroider in small spaces, like cuffs and collars.

**Giga Hoop:** At 230mm x 200mm (9.1" x 7.9") you can tackle the biggest designs.

**Hat Insert Hoop:** Put embroidery designs on the front of hats and caps.

It's amazing what you can create with **The Memory Craft 350E**

*Ask for a Demonstration!*

## Easy as 1-2-3

**Step 1** Choose from the 100 built-in designs. Bring in your own embroidery design or layout file.

**Step 2** Hoop your item. Two hoops come with the machine: the large 'B' Hoop 140mm x 200mm (5.5" x 7.9") and the standard 'A' Hoop 126mm x 110mm (5" x 4.3") or choose from the small optional Free Arm 'C' Hoop 50mm x 50mm (2" x 2") or the giant Giga 'D' Hoop 230mm x 200mm (9.1" x 7.9").

**Step 3** Push start button. The MC350E automatically stops when it's time to change thread colour, and the automatic thread cutter snips your threads. Every colour in your design is embroidered with legendary Janome stitch quality.
